

Successful Transitions to Reduce Hospital Readmissions

**You are invited to attend
an accredited CE presentation!**

TIME: [Day, Month, Date, Time]

LOCATION: [Virtual or Live Meeting Room]

The purpose of this program is to help provide clinical strategies to nurses, case managers, social workers and registered dietitians to assist in reducing avoidable hospital readmissions.

The course is followed by an evaluation and post-test, and participants passing the post-test (>80%) will earn one (1) continuing education credit hour.

Upon completion of this course, participants will be able to:

1. Review the costs of hospital readmissions
2. Describe components of a successful transition from hospital to various sites of care
3. Examine strategies to reduce hospital readmissions and improve patient outcomes

Presenter: This course was developed by Option Care Health and in collaboration with Hi-R-Ed Online University. Hi-R-Ed has been approved as a provider of continuing education credit for social workers, nurses and dietitians and has received course approval for case managers.

This CE course is part of an educational program provided by Option Care Health at no cost in order to increase the knowledge base of clinicians within the healthcare community.

If you have special needs not addressed in this flyer, please contact Option Care Health to make special arrangements.
