

Short Bowel Syndrome: Overview and Patient Management

**You are invited to attend
an accredited CE presentation!**

TIME: [Day, Month, Date, Time]

LOCATION: [Virtual or Live Meeting Room]

The purpose of this program is to help educate nurses, case managers, social workers and other healthcare professionals on short bowel syndrome: what it is, what causes it, and how to treat it. Both nutrition and medical/surgical management options will be explored.

The course is followed by an evaluation and post-test, and participants passing the post-test (>80%) will earn one (1) continuing education credit hour.

Upon completion of this course, participants will be able to:

1. Describe normal gastrointestinal function and absorption
2. Define short bowel syndrome
3. Identify 3 common etiologies of short bowel syndrome
4. Explain nutrition management of short bowel syndrome.
5. Understand medical & surgical management options for short bowel syndrome

Presenter: This course was developed by Option Care Health and in collaboration with Hi-R-Ed Online University. Hi-R-Ed has been approved as a provider of continuing education credit for social workers, nurses and dietitians and has received course approval for case managers.

This CE course is part of an educational program provided by Option Care Health at no cost in order to increase the knowledge base of clinicians within the healthcare community.

If you have special needs not addressed in this flyer, please contact Option Care Health to make special arrangements.
