**URGENT NOTICE OF EXTERNAL PHARMACY LEVEL URGENT MEDICAL DEVICE RECALL:  
Webcol™ Large Alcohol Prep Pads**

Option Care Health is aware of a recent Cardinal Health recall notice distributed at the pharmacy level involving Webcol™ Large Alcohol Prep Pads. The manufacturer's recall applies to specific product lots that have been removed from pharmacy inventory out of an abundance of caution due to potential quality concerns. At the time of the notice, the manufacturer indicated that there had been no reported adverse events associated with the recalled products.

Patients should review the manufacturer's recall notice to determine whether their product lot is affected. Please see the March 2, 2026, [Cardinal Health Urgent Medical Device Recall Notice](#).

**WHAT THIS MEANS FOR PATIENTS**

Based on the manufacturer's notice, the risk of harm appears to be very low for most patients. However, if you have affected alcohol prep pads at home, please discard them and purchase from a local retail pharmacy or store (e.g. Walgreens, CVS, etc.) new sterile alcohol wipes. **The wipes must contain 70% isopropyl alcohol and be clearly labeled as sterile.** You will receive new alcohol prep pads with your next scheduled delivery.

If you notice signs of infection, such as redness, swelling, warmth, drainage, or fever, please contact your prescriber or healthcare provider. If symptoms are severe, please seek immediate medical care.

If you have questions about this recall notice, please contact the Option Care Health pharmacy where you are receiving care.
